Overseas Student Health Cover (OSHC)

Health insurance, called Overseas Student Health Cover (OSHC), is compulsory for international students studying in Australia. This insurance covers you for certain medical costs if you need to visit a doctor or go to hospital while you are studying in Australia.

In 2015 the cost for standard OSHC is **A\$585 per year per single student**. The 2015 rate will apply for all applications submitted after 15 December 2014.

Students must pay OSHC for the entire length of their visa. Health cover rate is subject to review.

Health cover cards will either be delivered to you directly from Medibank Private or via DE International. This process may take a few weeks. If a student needs medical attention before they receive their membership card, they should pay for the service and keep all receipts. They can claim a refund from Medibank Private when issued with their card.

You should check the policy carefully in advance, including the details of what is covered. Optional extra cover is available for an additional fee.

Serious medical problems should be declared on your application form and taken care of before you come to Australia, as standard OSHC generally does not cover pre-existing medical conditions.

For more information about OSHC, visit the [Medibank Private website](#)
